RE: Smoking Compositions Containing a Flavorant Release Additive/PM 1151
Your PM-83-3

Dear George:

Herewith is a memo from inventors Podraza and Houminer which deals with some of your questions of May 31, and corrections to the draft application. The inventors are cautious about speculating on volatile byproducts.

If this fails to give you enough for a final draft, please get in touch with me or directly with Dr. Houminer at 274-5897. There is some urgency because he will be leaving for an extended period July 15, though he will not be totally out of reach.

Very truly yours,

Les
